# HALE CUBED

LIMITLESS POSSIBILITY.  
ZERO CONVENTIONALITY.

SOLID.  
SINCE 1907.

At Hale, every piece of furniture that leaves our factory is a reflection of who we are and where we've been. We're a family. We're master craftsmen. We have a reputation as solid as our furniture, which is proudly made, and sourced, in the USA.

Our standards were set more than 100 years ago. We set them high, and four generations have kept them there.

Today, we build on our rich history by looking ahead—embracing new markets, new designs and new techniques. And while we let a few machines lend a hand with some of the cuts, we still never cut a single corner.

That's just a part of our story, and we could keep on telling it. But we'd rather let you see it come to life in the furniture we build, with pride, just for you.

## INTRODUCING HALE CUBED.

### MIX IT. MATCH IT. MOVE IT. MAKE IT YOURS.

At Hale, we've long been recognized for our custom manufacturing capabilities when it comes to furniture and storage. Now, with Hale Cubed, we're placing the power of customization in your hands.

Hale Cubed is a modular furniture system consisting of cubed storage units, desktops and stand-alone desk options. It's durable, flexible and stylish—and with the ability to reconfigure to almost any setting without tools, it changes everything.

Get all of the technology needed, right there beside you. Collaboration never felt so organized.

## BRING A WHOLE NEW DIMENSION TO ANY ENVIRONMENT.

Hale Cubed is designed for flexibility. Regardless of your environment, it's never been easier to adapt a storage solution to your unique needs—or unique style. Plus, as those needs change, and technologies change, Hale Cubed changes with them.

Potential applications for Hale Cubed units include the following:

- Conference rooms
- Waiting rooms
- Offices/workstations
- Home offices

Beyond looks, part of what makes Hale Cubed the perfect fit is its versatility in terms of technology. Electricity is available in all units, and technologies can be integrated, added and adjusted as needed to meet your needs.

Keep adding cubes as your business grows and changes. Easily adjust the configuration right in place.

Electrical and charging capabilities

Put lights where you want to accent

Connect with dowels so you can move your cubes around by hand—no tools needed

## THE ONE THING THAT WILL NEVER CHANGE? QUALITY.

Modularity doesn't mean anything unless you can reconfigure how you want and repurpose as many times as you want. That's why we built Hale Cubed to the same high standards of quality that have set our products apart for over a century.

- A mix of solids and veneers delivers strength and value.
- Lock-joint mitered corners ensure maximum strength and durability over time.
- Soft-close drawers protect the product—and your fingers—from damage, while eliminating unsightly “almost-closed” doors.

## ONE SOLUTION. SO MANY OPTIONS.

Whether you're talking about stacking options, storage capabilities, or colors and finishes, Hale Cubed gives you—and your space—seemingly limitless possibilities.

- Two depths
- Two heights
- Eight finish options
- Four base options
- Two drawer sizes
- Three back options
- 11 profiles
- Six door options
- Eight decorative panel options

Plus, a handful of extras allow you to achieve even more.

- Wardrobe options
- Desktop options
- Dry-erase boards
- Additional drawers
- Lighting
- Electrical components including outlets and ports

Double-height cubes for wardrobes or larger items

Tight-fitting corner details

Soft-close, European hardware

Built with over 100 years of experience

*Use Cubes alongside Hale's custom capabilities to create entire environments. Build to meet today's specific needs and then adjust as your needs change.*

## IT'S TIME TO THINK INSIDE THE BOX.

The best way to experience the true quality and versatility of Hale Cubed is to see it for yourself. Contact us today to see how one simple, stylish cube can open up endless possibilities.
