

The logo for Saratoga Hall is centered in a bright yellow square. It features a large, bold, black letter 'S' on the left, with the word 'SARATOGA' in a smaller, black, sans-serif font to its right. Below the 'S' and 'SARATOGA' is a large, white, bold letter 'H'. At the bottom of the logo is the word 'HALE' in a very large, bold, black, sans-serif font. Below 'HALE' is the text 'SINCE 1907' in a smaller, black, sans-serif font.

SARATOGA SERIES

Saratoga series is a high quality platform that can meet any design requirement. It is a Platform that provides a complete library offering that is able to morph from contemporary to traditional in appearance.

Management

Committed To Continued Improvement. In today's world economies, we understand the importance of creating a culture of change to embrace and implement Lean.

Committed to the Environment. The Northeast forest is the largest intact forest ecosystem east of the Mississippi that spans 30 million acres across Maine, New Hampshire, Vermont and New York. Its ecological significance is well-known with vast areas of wild forest, critical habitat and the headwaters of major rivers. But it is more than an ecological resource. It is also home to 2 million people whose cultures, livelihoods, families, aspirations and dreams are tied to the forest. Hale Mfg. Co. and our employees are proud to call this home. It is our intent to conduct all aspects of business, from the purchasing department to the finishing and packaging departments, in an environmentally responsible way to protect our planet for future generations.

S

SARATOGA SERIES

It is very important for man to preserve and maintain the valuable knowledge and information contained in books and documents because we want to preserve our knowledge and wisdom for the coming generations.

Our approach is to offer these series as building blocks, or foundations, to give you the ability to create furniture using these designs, or blend in your own style and features to meet your unique requirements. Our customer service team is ready to help in designing a library to fit your environment, style, and your budget.

Product & Options

The defined clean lines and natural beauty of wood make the Saratoga Series a versatile solution to your library needs. The elegant bullnose detail and flush panel design make this series an essential addition to your new or current library.

This series will meet premier specifications and can be supplied in genuine walnut or cherry in addition to our standard oak or maple offering. Panels feature a unique internal hardwood edge band. Solid lumber core is used where strength and stability is needed. All panels and shelves are nominally 7/8" thick. Only select grade genuine hardwood veneers are used. Hardwood lumber of the same specie is used in components where durability is paramount.

craftsmanship/quality/longevity/complexity/simplicity

At Hale, you'll find that we produce and finish things differently. Our true wood joinery is made to withstand years of service. There are no open joints, incorrect machining, added labor expenses of assembly, or damages caused by assembly crews. We have the ability to reconfigure layouts on the spot, and add pieces to your environment at any time.

The fundamental building blocks begin here...

Our range of products and ability to custom-service your needs—**enable you** to build solid foundations

We at Hale realize the customer experience starts with the first phone call and does not end until delivery has been made and the product is installed, meeting the highest expectations.
